

CONTENTS

Front Title	307
Board of Editors	309–311
Front Contents	313–314
Condensed Matter & Materials Physics	
Stimulation of ice crystallisation with ultrasonic cavitation—microscopic studies RACHEL CHOW, RENOO BLINDT, ARNOLD KAMP, PETER GROCCUT AND ROBERT CHIVERS	315–318
A structural analysis of the effect of Ar and H ₂ on microcrystalline growth in Si:H materials deposited in conventional PECVD chamber NAMITA DUTTA GUPTA AND PARTHA CHAUDHURI	319–325
Growth and microhardness studies in solution-grown single crystals of thenardite S KARAN AND S P SEN GUPTA	327–332
Photoemission study of Ba 2+ and Nd 3+ substitution for Ca 2+ in the BSCCO (2212) superconducting system KAMLESH KUMARI, R K SINGHAL, K B GARG, M HEINONEN, J LEIRO, ANURAG GUPTA AND S K AGARWAL	333–339
Theory of Auger neutralization of positrons at metal surfaces ABDALAZIZ A ALMULHEM	341–345
Rapid determination of quartz and structural characterisation of feldspars in rocks using FTIR V RAMASAMY, K ANANDALAKSHMI AND V PONNUSAMY	347–352
DC electrical conduction mechanism in polypropylene-Bijoypur white clay (PP-BWC) composites A RAZZAK AND A H BHUIYAN	353–357
Effect of Zn dilution of the electrical properties of Co _{1-x} Zn _x La _y Fe _{2-y} O ₄ (0.1 ≤ x ≤ 0.9 and y = 0.25) G ABDELLATIF	359–364
Temperature dependence of junction voltage in bilayer cuprate superconductors M P SINGH	365–369
Irradiated polytetrafluoroethylene (PTFE) and polyethylene (PE) microstructural changes studied by PAL technique A A AL-BAYATI	371–375

Nuclear Physics

Phenomenological anharmonic vibrational models description for the ground state

band energies of even-even nuclei

N A MANSOUR AND A M DIAB 377-381

Calculation of neutron cross sections for ^{90}Zr , ^{208}Pb and ^{209}Bi in the energy range of 0.5–25 MeV

by using the optical model potentials

M M H MIAH, M N ISLAM AND M R I FARUQUE 383–386

Notes

Optically controlled noise and small-signal behaviour of READ avalanche diode

G N DASH, J K MISHRA, I P MISHRA AND S R PAITANAIK 387–391

Photoemission studies of metals by using Mathieu potential

B ZOLIANA, ZATHANZAUVA PACHUAU, LAITHAKIMI ZADENG, P K PATRA,

D T KHATHING AND R K THAPA 393–396

Second harmonic generation efficiency in KDP crystals containing alkali halides

R ANANDA KUMARI AND R CHANDRAMANI 397–399

Book Reviews 401–402*Forthcoming Publications (A)* 403–404*Notes for Contributors* 405–407*Our Special Publications* 409–410*Announcements* 411–416
